The interior of the Escape is designed to maximise space and convenience. Hassle-free wireless charging is available for compatible smartphones so you won't have to remember your phone charger cord again.

Adaptive Cruise Control with Stop & Go

Long distances made easy with Escape. Set your cruising speed and automatically maintain a fixed distance from the vehicle in front with the press of a button. Radar sensors scan the road ahead, if they sense that traffic slows, so does the Escape. Once the traffic clears, it returns to your pre-set speed^{2,3}. Enjoy the journey.

Hands-Free Power Tailgate

No more rummaging for your keys, handsfree power tailgate⁴ makes access to your Escape ST-Line X load compartment easy, even when your hands are full. Kick your foot under the rear bumper and the hands-free power tailgate⁴ opens and closes automatically.

Flexible Seating Adapts To Your Needs

The All-New Escape is designed to be ready for anything. A dynamic new interior design gives you ultimate freedom and adapts to every journey. Need more boot-space for a big trip or prefer the luxury of extra legroom in the back? Flexible rear seating slides forward or backward to suit your needs, so you can focus on where you're going rather than what you'll need to leave behind.

Premium Sound System (B&O PLAY)

Whatever your taste in music, it deserves to sound as the artist intended. The advanced 10-speaker⁵, 575-watt set-up has been specifically developed and fine-tuned for your Escape ST-Line X by specialist B&O sound engineers. So, turn it up and enjoy your favourite bands and songs in the concert hall that is your car's cabin.
